

# MERCURY

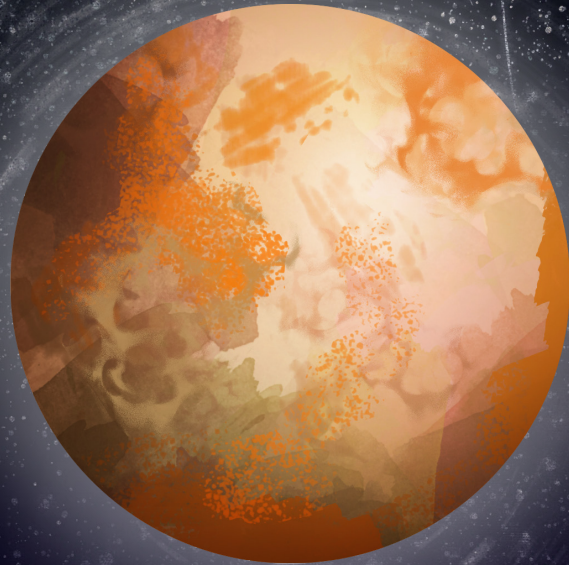

Closest planet to the sun

5 months away by  
spaceship

Takes 88 days to  
orbit the sun

# VENUS

2<sup>nd</sup> planet from the sun

4 months away by  
spaceship

Takes 224 days to  
orbit the sun

# EARTH

3<sup>rd</sup> planet from the sun

We live here

Takes 365 days to  
orbit the sun

# MARS

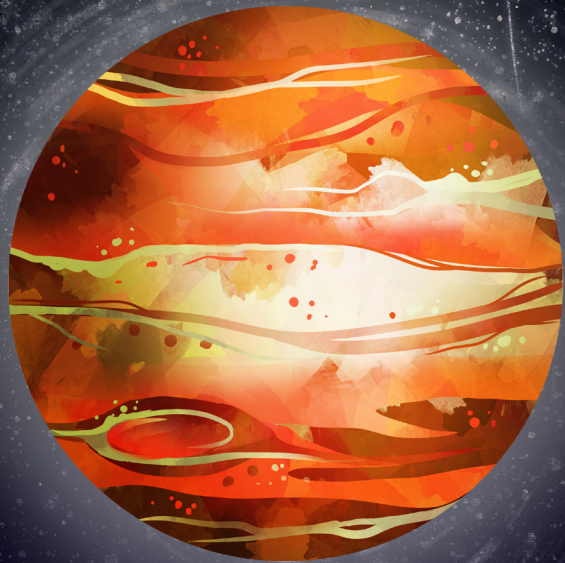

4<sup>th</sup> planet from the sun

8 months away by  
spaceship

Takes 686 days to  
orbit the sun

# JUPITER

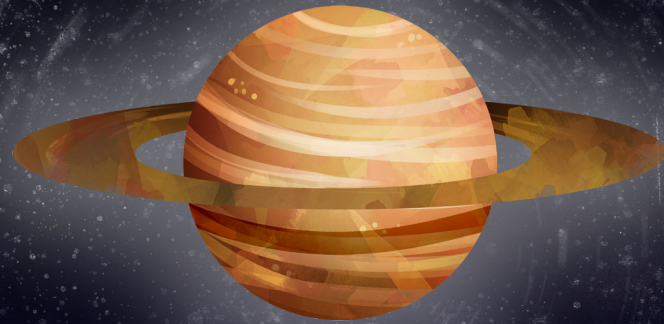

5<sup>th</sup> planet from the sun

13 months away by  
spaceship

Takes 12 years to  
orbit the sun

# SATURN

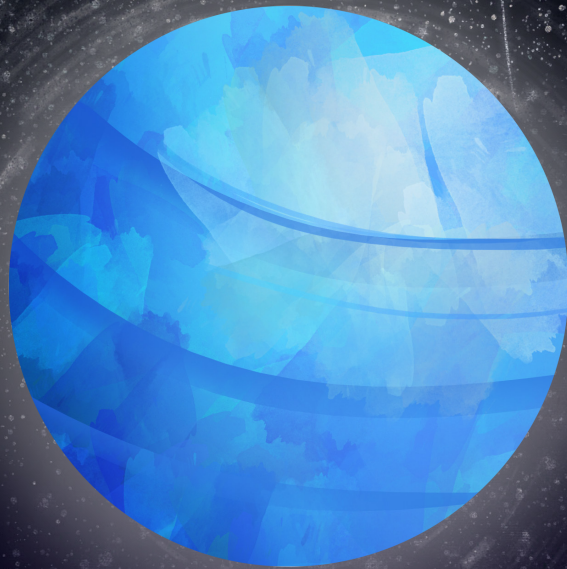

6<sup>th</sup> planet from the sun

4 years away by  
spaceship

Takes 29 years to  
orbit the sun

# URANUS

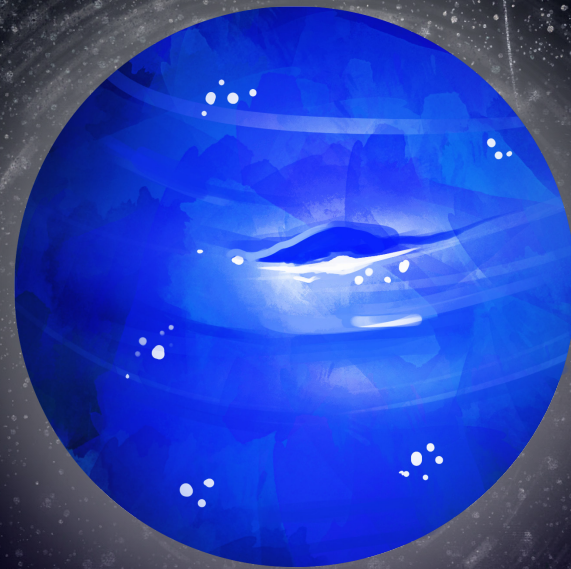

7<sup>th</sup> planet from the sun

8 years away by  
spaceship

Takes 84 years to  
orbit the sun

# NEPTUNE

8<sup>th</sup> planet from the sun

12 years away by  
spaceship

Takes 165 years to  
orbit the sun
